Omeed Lodin

Ajax, ON | 289-600-4349 | omeed_lodin@live.com | linkedin.com/in/omeed-lodin | omeedlodin.github.io

Physics & Astronomy student seeking a **nuclear operations** role, with university coursework in **statistical and thermal physics**, modern physics, and electromagnetics, plus Grade 12 U Math, Physics, and Chemistry. Hands-on mechanical experience including a full engine rebuild to service-manual procedures, and **radiation safety** practice with a sealed lab source. Experienced with **night shift** work; WHMIS certified and **eligible for Canadian security clearance**.

Education

York University — Sept. 2022 – Exp. 2027
B.Sc. Physics & Astronomy — *Toronto, ON*

- Coursework: Statistical & Thermal Physics, Modern Physics, Experiments in Modern Physics, Electromagnetics I; Quantum Mechanics (Winter 2027)
- Ian and Dorothy MacDonald Award recipient; ranked Top 10 of 150 in the Physics Experiment Poster Challenge (2024)

Ontario Secondary School Diploma (OSSD) — June 2022
*Ontario Scholar — **96% graduating average*** — *Ajax, ON*

- Grade 12 University Preparation: **Physics (SPH4U), Chemistry (SCH4U)**, Advanced Functions, Calculus & Vectors

Mechanical & Technical Experience

Engine Rebuild & Maintenance | 2017 Audi A4, EA888 Gen 3 2.0L TFSI (turbocharged, direct-injection inline-4) — Ongoing

- Rebuilt the engine per the service manual to fix coolant leaks, gaskets, timing chain, and carbon buildup; **100,000+ km** since
- Isolate electrical systems by disconnecting the battery before work; drain, refill, and bleed the cooling system
- Inspect components, diagnose faults with an OBD-II scanner, and correct deficiencies: water pump, turbo valve, brakes, sensors

Custom PC Building | Side business — 2019 – 2024

- Built **20+** custom PCs for customers: picked compatible parts, assembled and wired them, installed OS and drivers
- Stress-tested every build and checked temperatures before handoff

Experimental Physics Labs | York University — 2022 – Present

- Set up and ran **Rutherford scattering** (sealed radioactive source), Millikan oil drop, and Cavendish torsion balance experiments
- Followed **radiation**, laser, and chemical safety procedures; kept a lab notebook and wrote formal reports

Work Experience

Computer Forensics Intern — Summer 2026
KlueTek (Individual & Corporate IT Solutions) — *Toronto, ON*

- Completed intake and preliminary engagement documentation with each client before any work began on a compromised system
- Collected compromised devices and ran forensic triage scripts to troubleshoot and identify the source of compromise
- Protected confidential client information with integrity throughout each case, keeping devices and records secure and accurate

Business Development Manager — May 2025 – May 2026
Loopr Marketing (Video Games Industry Marketing) — *Toronto/Montreal, ON*

- Generated **15+ qualified leads per week** against a 10-lead team target through industry expos and direct outreach

Sales Representative — Aug. 2023 – May 2025
ASR Building Supplies (Construction Supply Company) — *Mississauga, ON*

- Served contractors at a high-volume counter; cut deal-closing time by roughly **30%** through dedicated closing meetings

IT Support Specialist — June 2022 – Aug. 2023
KlueTek (Individual & Corporate IT Solutions) — *Toronto, ON*

- Supported **50+** clients in person and remotely, troubleshooting and resolving hardware and software faults
- Performed component-level repairs and part swaps (HDD/SSD, RAM, GPU, PSU); kept accurate service records

Manager — Nov. 2019 – June 2021
Maestros Gourmet Pizza — *Ajax, ON*

- Worked **night shifts six nights a week** through high school; closed the store, opened on weekends, and handled shift turnover
- Led daily operations, inventory, kitchen equipment upkeep, and staff training

Skills

Mechanical:	Engine rebuild, equipment inspection, torque-to-spec assembly, cooling system service, OBD-II diagnostics
Electrical & Lab:	Oscilloscope, multimeter, DC power supply, soldering iron
Safety:	WHMIS; radiation, laser, and chemical lab safety; electrical isolation before work; confidentiality
Computer & Other:	PC assembly and stress testing, hardware repair, technical reports, data analysis (Python, Excel), Office 365
Licence & Languages:	Full G Driver's Licence (Ontario); eligible for Canadian security clearance; English, Farsi, Dari (fluent)
